

Electronic Sensors, Inc.

– Monitoring your World,
Helping You Manage Your Enterprise.

**ESI is a leading U.S. producer
of
industrial
instruments
for
on-site & remote
monitoring
of
assets, systems & facilities
&**

provides flexible remote-monitoring services

Industries we serve:

- Industrial Facilities & Operations
- Fluid Distribution Companies
- Oil & Gas Industry
- Transportation
- Construction & Development
- Building Maintenance & Management
- Government Facilities & Installations
- Agriculture & Food Production

...and YOU.

Our remote-monitoring displays show, on your computer, tablet or smartphone, your sensor's status, readings, history & trends – and alert you to changes according to *your* preferences.

Since 1984, ESI has been one of the nation's leaders in industrial instruments and monitoring systems. Starting with fluid tank monitoring systems and services, ESI has broadened its technology to include all kinds of remote monitoring of industrial sensors, switches and power, using the same data telemetry channels.

Our instruments provide you with information on conditions and change events with your common industrial sensors, including:

- temperature
- pressure
- flow & motion
- switch position (on/off; in/out; open/closed, etc.)
- 110v AC power status (on/off)

ESI monitoring systems offer local and/or remote signaling and digital displays -- via landline or cellular telephone, satellite, serial (RS-232) line, local short-range radio (RF), Ethernet/Wifi, and other wire, telecom and internet connections.

On-site alarms (lights and/or horns) and relays to control other devices, can be integrated and programmed with your monitor.

We also provide a wide range of industrial sensors to fit these monitors. And our monitors operate with battery, solar and/or AC power, depending upon your needs.

With a wide range of potential applications, we will be happy to have an applications engineer come to your site to assist you in developing an effective monitoring solution for **your** unique situation.

With over 10,000 installations across the U.S. and abroad, our customers have included:

- Ford Motor Co.
- U.S. Army
- Shell Oil
- Jiffy Lube
- Rockwell Int'l
- Miller Brewing
- Borden
- Scott Paper
- Monsanto
- Alcoa
- Cenex
- Cargill

But the customer we want most is **YOU.** Call us today:
